OUTDOOR FURNISHINGS

Today

The Sundrella sun rises as it has since 1956, and the outdoor furniture market has been a little brighter for it. Our company has a history of adapting, of moving forward with new styles and materials, new color trends and manufacturing techniques. In 2012, the Villella family wove a renewed purpose into the fabric of Sundrella Furniture with a promise to support American craftsmanship. As a result, we are now a 100-percent all-American manufacturer, from frames to fabrics, slings to straps, every element down to the bolts on every piece of our commercial-quality, designer aluminum furniture. We use only American-made raw materials and American labor in our 50,000+ square-foot production facility. We believe that's what has kept Sundrella burning bright, and will be that way for as long as the sun continues to shine.

Tomorrow

What does the future hold for Sundrella? In the same way the sun always rises, we expect the immense strides our company has made to lead us forward for years to come. Growth is not a given; it is up to us to anticipate it, to plan for it, to invite it. Like all successful companies, we know the one constant we can depend upon is change. The commercial furniture market is as unpredictable and as subject to at-a-moment's-notice shifts in trends and market pressures as any. So, it is critical that we stay vigilant, to adapt and pivot when necessary. If the past 65 years have taught us anything, it's that we can never rest on our laurels. Sundrella will always strive for beauty, comfort, and greatness, both in its products and its operations. We will always provide the most durable and affordable outdoor furniture under the sun.
